UPLB Information Technology Center

http://itc.uplb.edu.ph

The UPLB ITC is a dedicated IT department of the University of the Philippines Los Baños under the Office of the Vice Chancellor for Planning and Development. It was formed through the merging of the Management Information Systems and Los Baños Computer Center (formerly under the Institute of Computer Science). The merging of the units and renaming it as UPLB ITC was approved by the UP Board of Regents on May 30, 2008. [Excerpt from the Minutes of the 1232nd Meeting of the Board of Regents held on 30 May 2008 at the Audio Visual Room, U.P. Visayas Cebu College, Lahug, Cebu City]

Vision

A community of conscientious, innovative but practical IT practitioners that support the academic, administrative, research and extension functions of the University.

Mission

To transform the way UPLB works by incorporating Information Technology to all facets of the University operations, resulting in a modernized and efficient environment for instruction, research and administrative processes.

ITC Organizational Chart

Network Administration

The *Network Administration* Team ensures that UPLB employees and students can access to UPLB Network securely and efficiently. They also ensure the fair allocation of bandwidth to specific Units or Events and develop solutions to ensure fair and efficient use of the Internet Bandwidth. The *Network Administration* is responsible for users to connect to the different services they need and ensure that sufficient security is enforced within the Network.

System Administration

The System Administration Team administers the core IT servers and technologies in the campus Data Center. They act as the glue that integrates other IT technologies such as VoIP, e-mail, authentication and security together. The System Administration Team is ultimately responsible for the overall functionality and performance of the IT services to users inside and outside the campus.

Management Information Systems (Application Services/MIS)

The *Management Information Systems* Team is responsible for designing, developing, and deploying internal office applications and solutions aimed at the improvement of University processes towards a more efficient and effective electronic-supported and standardized data management system. So many things must be done since current processes in the University still rely heavily on paper-based documents. The main challenge for the MIS, therefore, is to collect and analyze these documents and provide the best management solutions for each of the University's offices.

Technical Support

The *Technical Support* Team provides comprehensive end-to-end IT service delivery and support processes to ensure a productive and efficient utilization of our university's IT resources. The *Technical Support* Team is also dedicated in continually improving the standards of customer service while ensuring a secure and stable working environment to support the academic goals of the University.

Training Support (Quality Assurance and Training)

The UPLB ITC will provide training support for UPLB employees regarding IT matters.

ITC Contact Information

UPLB Information Technology Center

Rm. 206 2nd FIr A.G. Samonte Hall University of the Philippines Los Baños College, Laguna 4031 Philippines Tel. (+63.49) 536-2886 / 501-4591- T/F VoIP No. 100 itc@uplb.edu.ph

Technical Support Team

Rm. 106 Ground Flr A.G. Samonte Hall University of the Philippines Los Baños College, Laguna 4031 Philippines Tel. (+63.49) 501-4793 VOIP No. 105 itctechsupport@uplb.edu.ph

Dante Gideon K. Vergara Director, UPLB ITC

HOW TO USE VOIP PHONE TO MAKE A PHONE CALL

VoIP-to-VoIP (within UPLB)

Pick up handset or press SPEAKERPHONE button, and then enter the UPLB VoIP number. Example: 105 (to call the ITC Technical Support Team)

VoIP-to-Landline (local call)

Pick up handset or press SPEAKERPHONE button, and then enter '9' then the local PLDT number.

Example: 9 5362886 (to call the PLDT number of ITC using the VoIP phone)

VoIP-to-Landline (long distance call to Manila)

Pick up handset or press SPEAKERPHONE button, and then enter '8739' then the Manila number. Example: 8739 932011 (to call the hotline number of the Civil Service Commission)

BASIC FEATURES OF VOIP PHONE

Call Waiting and Call Flashing

If call waiting feature is enabled, while the user is in a conversation, he will hear a special stutter tone if there is another incoming call. User then can press FLASH button to put the current call party on hold automatically and switch to the other call. Pressing flash button toggles between two active calls.

Call Transfer / Forwarding

<u>Blind Transfer</u> - User can transfer an active call to a third party without announcement. User presses the "TRANSFER" button and if the other voice channel is available (i.e., there is no other active conversation besides the current one), user will hear a dial tone. User can then dial the third party's phone number followed by pressing SEND button. User can hold on to the phone and wait for one of the three following behaviors:

- A quick confirmation tone (temporarily using the call waiting indication tone) followed by a dial tone. This indicates the transfer has been successful. At this point, the user can either hang up or make another call.
- A quick busy tone followed by a restored call (On supported platforms only). This means the transfer has failed due to the failed response sent from server and the phone will try to recover the call. The busy tone is just to indicate to the transfer or that the transfer has failed.
- Busy tone keeps playing. This means the phone has failed to receive the final response and decide to time out. Be advised that this does not indicate the transfer has been successful, nor does it indicate the transfer has failed.

<u>Attended Transfer</u> - User can transfer an active call to a third party with announcement. User presses the "FLASH" button and hears a dial tone, then dial the third party's phone number followed by pressing "SEND" button. If the call is answered, press "TRANSFER" to complete the transfer operation and hang up. If the call is not answered, press "FLASH" button to resume the original call. *NOTE: When Attended Transfer failed, if user A hangs up, the phone will ring user A*

back again to remind A that user B is still on the call. User A can pick up the phone to restore conversation with user B.

Conference Call

BudgeTone 101 phone supports 3-way conference. Assuming that call party A and B are in conversation. A wants to bring C in a conference:

- 1. A presses the "CONFERENCE" button to get a dial tone and put B on hold.
- 2. A dials C's number then "SEND" key to make the call.
- 3. If C answers the call, then A presses "CONFERENCE" button to bring B, C in the conference.
- 4. If C does not answer the call, A can press FLASH back to talk to B.

COMMON ERROR MESSAGES / RESPONSE CODE

Symptoms	Description
NO POWER	This means that the VOIP Power Adapter is not plugged properly. Kindly ensure
OR NO DISPLAY	that the VOIP Phone is plugged to a working power outlet.
NO IP	This means that the VOIP Phone is not properly connected to the Network. Please check whether the UTP Cable is properly connected to the VOIP Phone and to a Network Switch.
CHOPPY VOICE	There might be a network congestion in your Local Area Network. Try again later or report this problem to the ITC if this occurs frequently

When your VoIP Phone has a dial tone but you could not make a call, a three-digit response code will be displayed on the phone's LCD telling you the reason for the call failure. The following are some of the common response codes and their corresponding error messages:

Response Code	Description
404	Not Found (number does not exist)
	Solution: Please check if you did dial the correct number. It might be that the VOIP phone
	for that Unit is not yet deployed within their network.
486	Busy Here
	Solution: Please try again after a few minutes.
503	Service Unavailable
	Solution: The phone you are calling might be currently turned off or it has no network connectivity at the moment.

If you have any problems/concerns, kindly contact the ITC via 536-2886 or VOIP:100.
